MINT (PDO) THREAD LIFT

KOREAN MINT PDO THREADS

Long biodegradable filaments coated in a stimulatory material (PDO – polydioxanone) are inserted under the skin to lift and tighten skin tissue of the facial and neck. We offer an innovative thread lift treatment that combines MINT long threads with PDO mono threads for a more dramatic lift. You will see immediate results with continued improvement over 4-12 weeks.

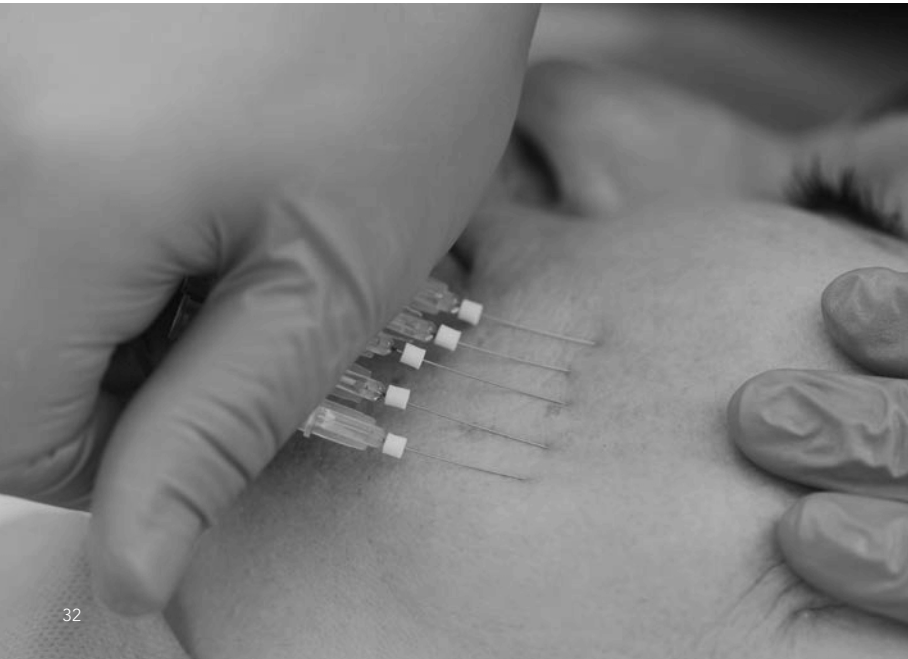
MINT thread lift is moderately invasive and is performed by our experienced Doctors. Results last up to 24 months.

USED TO: reposition and tighten skin laxity or 'sagging' of the face & neck by lifting sagging tissue, stimulating collagen and contraction of fat tissue.

FULL MINT THREAD LIFT TREATMENT	**3400**

Price includes:

- *Consultation with our Cosmetic Doctor*
- *Placement of a minimum of 12 x MINT PDO long threads + PDO mono threads*
- *Post care pack*



MONO (PDO) THREADS

MATRIX PDO MONO THREADS

Short biodegradable filaments coated in a stimulatory material (PDO – polydioxanone), inserted under the skin to stimulate collagen and elastin to firm and smooth fine lines, wrinkles and 'crepey' skin on the face and neck.

Ideal for rejuvenating the skin without adding volume or 'bulk' to the treated area. Often paired with dermal filler treatment and MINT thread treatment for complete rejuvenation.

Mono threads are minimally invasive and are performed by our experienced Doctors.

USED TO TREAT: Thinning skin, fine lines, improvement in overall skin quality in preparation for dermal filler treatment.

TREATMENT	SINGLE
CONSULTATION	*Complimentary*
MINI AREA (20) *tear trough, mouth, nasolabial folds, marionette lines*	600
MAXI AREA (30) *lower cheeks, full neck, jawline/chin*	800
