## HYDRA FACIAL MD (HYDROMICRODERMABRASION)

*Allow 60 minutes*

Vamp Cosmetic Clinic is Newcastle's specialist HydraFacial MD clinic. The newest technology in microdermabrasion, the HydraFacial provides effective facial rejuvenation with minimal downtime.

The basic HydraFacial has 4 easy steps - cleanse, glycolic peel for exfoliation, extractions, and infusion of serums (hyaluronic acid, glycolic and salicylic acid) to plump and smooth the superficial layers of the skin.

### **USED TO TREAT:**

Dullness, mild sun damage, fine lines, enlarged and congested pores, black heads, dry skin. An ideal treatment prior to more intensive laser and radiofrequency skin treatments for maximum results.

7.5% glycolic peel	\$189
15% glycolic peel	\$199
30% glycolic peel	\$209
LED (blue light or red light add on)	\$19

## RED CARPET FACIAL

*Allow 90 minutes*

A hydrating non-invasive facial treatment designed to give you glowing, smooth, plump skin in one treatment. The treatment of choice before a big event. Its superior to other facials because it combines our very popular HydraFacial MD treatment followed by an application of our skin tightening radiofrequency technology to tighten and plump the skin.

**USED TO TREAT:** Dullness, mild sun damage, fine lines, enlarged and congested pores, black heads, dry skin, temporarily tightens and plumps the skin

7.5% glycolic peel	\$229
15% glycolic peel	\$239
30% glycolic peel	\$249

## ESCARGLOW FACIAL

Skin micro needling + growth factors (SCA)

*Allow 60-90 minutes*

A novel facial treatment combining the stimulating effect of skin micro needling with animal derived growth factors (SCA or snail mucin). Growth factors are chemical messengers that stimulate collagen and elastin synthesis. Small needles (using a needling pen) penetrate the skin to form microscopic 'micro injuries' which open up channels in the skin. These channels allow delivery of growth factors to the deeper layers of the skin. The combination of micro needling and deep penetration of growth factors results in intensive skin rejuvenation.

**USED TO TREAT:** thinning skin, fine lines and wrinkles

Full face	\$299
Full face + neck	\$389
Full face + neck + décolletage	\$449

## PICOWAY PETITE (LASER FACIAL)

\$329

*Allow 60 minutes*

The PicoWay Petite Laser Facial is a laser treatment used to treat enlarged pores, mild discoloration and skin texture for improved overall skin clarity. Our very popular PicoWay Resolve laser is used to perform this treatment.

**USED TO TREAT:** Enlarged pores, skin tone and texture and superficial pigment for improved overall skin clarity. Perfect for those wanting to try laser skin rejuvenation or as maintenance following a course of more intensive laser skin rejuvenation such as following a course of PicoWay Resolve or CO2 fractional skin rejuvenation.

## SALICYLIC PEEL

*Allow 45 minutes*

Ideal for acne prone skin, the salicylic peel (from 5%) provides a deep, thorough cleansing of congested pores. With powerful anti-inflammatory properties, salicylic acid effectively calms sore red skin and helps manage any further flare ups.

**USED TO TREAT:** Acne prone skin, enlarged pores and blackheads.

A course of treatments is recommended for best results.

---

\$95

## LACTIC PEEL

*Allow 45 minutes*

The Lactic peel (from 20%) is an active yet gentle exfoliating treatment that aids dehydrated, sun damaged or pigmented skin.

**USED TO TREAT:** Irregular skin texture, dry skin, sun damage, can help treat pigmentation. A course of treatments is recommended for best results.

---

\$110

## SALICYLIC + LACTIC LAYERED PEEL

*Allow 45 minutes*

The salicylic and lactic layered peel that combines deep cleansing, anti-inflammatory salicylic acid with hydrating, exfoliating lactic acid.

**USED TO TREAT:** Acne prone skin, enlarged pores, blackheads, irregular skin texture, dry skin, sun damage, can help treat pigmentation.

Active ingredients: salicylic acid (from 5%), lactic acid (from 20%).

A course of treatments is recommended for best results.

---

\$129

22

## MILK PEEL

*Allow 45 minutes*

The ultimate brightening treatment. A combination of glycolic acid, lactic acid and salicylic acid are used to treat dull complexion, enlarged pores, dehydrated skin. A course of treatments is recommended for best results.

---

\$169

## COSMO PEEL (TCA)

*Allow 45 minutes*

A very popular and well known chemical peel, a combination of TCA (15%, 18%, 20%), salicylic acid, citric acid, vitamin A & vitamin C are used to induce a superficial chemical peeling of the skin. Used to treat pigmentation, fine lines & uneven skin texture, solar keratosis and sun damage.

Expect flaking and peeling of the skin for 5-10 days

A course of treatments is recommended for best results.

---

\$189

## MELA PEEL

*Allow 45 minutes*

An effective treatment used to treat pigment. Often used in combination with laser treatments in a cyclic course of treatments. A combination of kojic acid, retinol, phytic acid, lactic acid and more are used to treat skin discolouration and unwanted pigment.

A course of treatments is recommended for best results.
