## MIRADRY

### TREATMENT OF EXCESSIVE SWEATING (HYPERHYDROSIS) & ODOUR

The miraDry® procedure uses non-invasive technology that is safe and clinically proven to dramatically reduce underarm sweat AND odour in a single treatment with long lasting results.

The miraDry® System delivers precisely controlled thermal (heat) energy to the region where the underarm sweat and odour glands reside and eliminates these glands non-invasively. You can expect to see sweat reduction immediately with minimal downtime.

**Clinical studies show an average of 82% sweat reduction after a single treatment.**

#### SINGLE TREATMENT

\$2400

*In approximately 10% of cases a second treatment may be desired at significantly discounted cost of \$1400*
