

## MIRADRY

### TREATMENT OF EXCESSIVE SWEATING (HYPERHYDROSIS) & ODOUR

The miraDry® procedure uses non-invasive technology that is clinically proven to dramatically reduce underarm sweat AND odour in a single treatment with long lasting results. It is the only long term non invasive solution for excessive underarm sweating currently available.

The miraDry® system delivers precisely controlled thermal (heat) energy to the region where the underarm sweat and odour glands reside and eliminates these glands noninvasively. You can expect to see sweat reduction immediately with minimal downtime.

*Treatments are performed by our experienced miraDry Therapist and Cosmetic Doctor.*

*Requires consultation with our miraDry Therapist prior to proceeding with treatment.*
