

VaMP
COSMETIC CLINIC ●

WELCOME

We are a doctor owned and doctor led clinic specialising in innovative nonsurgical cosmetic treatments. We believe beauty is more than just the way you look; it's about preserving and restoring your sense of self and gaining confidence to enjoy every stage of your life.

We have one of the largest ranges of aesthetic devices and non-surgical treatments in the Hunter & Central Coast area, with treatments to suit almost any skin concern. We invest only in the best technology and pharmaceuticals with proven profiles of efficacy and safety.

With so many treatments to choose from, we understand deciding which one is right for you can be daunting. Consultations with our friendly and highly experienced team of Doctors and Dermal Therapists are complimentary. We are here to help you choose the treatment that's right for you, to achieve the results you deserve.

We look forward to your visit.

LASER HAIR REMOVAL

GENTLE MAX PRO LASER BY CANDELA MEDICAL

We offer fast and effective laser hair removal for men and women using the powerful Gentle Max Pro Laser by Candela Medical. Suitable for light and darker skin types, treatment is faster and uses cryogen cooling for your comfort. Treatments are performed by our highly trained and experienced Dermal Therapists who understand laser technology and safety.

An average of 8-10 treatments is recommended for best results.

VEIN LASER TREATMENT

GENTLE MAX PRO LASER BY CANDELA MEDICAL

A non-invasive laser treatment for spider veins for the face and body. A quick pulse of light and heat is delivered to the skin eliminating and sealing the visible part of the vein. Small or large areas of the body can be treated. The laser is fast, and cooling is used throughout treatment to minimise discomfort.

- **USED TO TREAT:** Spider veins on the face & body (telangiectasia or venulectasias) **Not suitable for treatment of varicose veins.**

A course of 1-3 or more treatments is recommended for best results.

TREATMENTS	SINGLE	2x	3x
		<i>price is per treatment</i>

PHOTOREJUVENATION (IPL)

NORDLYS ELLIPSE IPL BY CANDELA MEDICAL

Advanced intense pulsed light (IPL), a highly effective treatment targeting brown pigmentation - sun damage, freckles and age spots, and vascular conditions - diffuse redness and rosacea. Suitable for light and medium skin types. One of our most popular laser treatments for clearer brighter skin.

● **USED TO TREAT:** Age related pigmentation, sun damage, freckles, skin redness, rosacea. Not suitable for treatment of melasma.

A course of 3 or more treatments is recommended for best results.

PICOWAY LASER SKIN REJUVENATION

PICOWAY LASER BY CANDELA MEDICAL

Our most popular laser skin rejuvenation treatment, PicoWay uses advanced picosecond technology to treat pigmentation, fine lines, enlarged pores and diffuse redness all in the same treatment. The laser works in the deeper layers of the skin delivering a highly effective treatment with very little downtime.

PicoWay differs from IPL skin rejuvenation because it stimulates collagen and elastin as well as treating pigment and redness in the skin. The result is clearer, softer more youthful skin in less than a second.

● **USED TO TREAT:** Fine lines, enlarged pores, age related pigmentation, sun damage, skin texture, skin redness.

A course of 3-6 treatments is recommended for best results.

CO₂ LASER SKIN RESURFACING

CO₂RE LASER BY CANDELA MEDICAL

The treatment of choice for advanced signs of external ageing – deep wrinkles, age related pigmentation and skin laxity. CO₂ laser skin resurfacing is the 'gold standard' of laser skin rejuvenation treatments.

CO₂ laser resurfacing is considered a semi surgical treatment and is performed exclusively by our skilled Cosmetic Doctors. The laser uses deep heat ablation to resurface the skin with impressive results in a single treatment. The downtime for this treatment is 14 days and involves a strict at home post care regimen. You will see immediate improvement in your skin with continued improvement for up to 12 months after treatment, as new collagen and elastin are formed.

TREATMENTS	SINGLE
CONSULTATION WITH DOCTOR	<i>complimentary</i>
FULL FACE	5500
FACE + NECK	6000

Treatment pricing includes:

- *pre and post consultations with your Doctor*
- *post treatment care pack*
- *complimentary LED light therapy treatment valued at \$120*
- *cosmeceutical gift valued at over \$100*

Refer to our website for more details and our CO₂ laser skin resurfacing before & after gallery – www.vampcosmeticclinic.com.au

SKIN TAG & MOLE REMOVAL

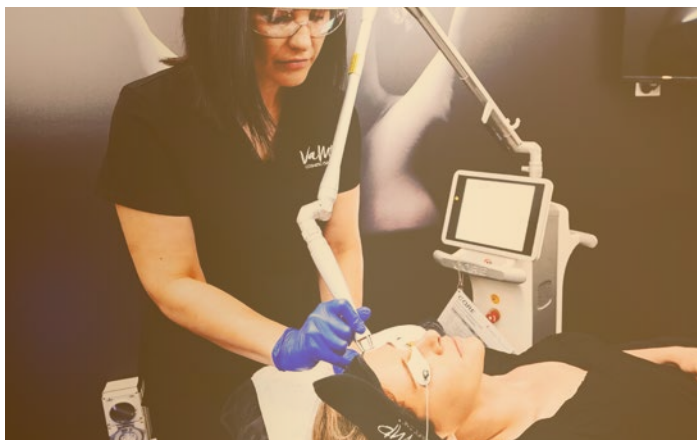

CO₂RE LASER & GENTLE MAX PRO LASER BY CANDELA MEDICAL

This treatment uses a laser beam to precisely target and ablate benign moles and lesions without damaging surrounding tissue. The laser is extremely fast, treating lesions in seconds in most cases. Laser treatment is superior to other forms of skin tag and mole removal with less risk of scarring.

No referral is required although if you have a referral from your GP please bring it to your appointment. If on examination the mole or skin tag warrants further investigation and is not suitable for removal, we will refer you back to your usual GP or skin cancer doctor.

- **USED TO TREAT:** Seborrheic keratoses, skin tags, naevi lentiginos, solar keratoses, xanthelasma, sebaceous hyperplasia, milia.

TREATMENT	SINGLE	2-5	6-10	>+10

DEEP SKIN NEEDLING

PROFOUND TREATMENT BY CANDELA MEDICAL

Performed exclusively by our Cosmetic Doctors.

A revolutionary intensive skin needling treatment for the lower face, mid face & neck. Ideal for treatment of thin 'crepey' skin, mild to moderate wrinkles and skin laxity (sagging). Local anaesthetic injections are used to numb the face and neck. Specialised needles are inserted deep into the skin tissue and heated to a precise temperature stimulating collagen, elastin and hyaluronic acid. Unlike other needling treatments, only a single treatment is required.

- **USED TO TREAT:** Skin laxity to the face and neck, moderate to severe wrinkles, thinning 'crepey' skin.

TREATMENT (SINGLE): **\$3400**

Treatment takes around 2-3 hours to perform.

Treatment pricing includes:

- pre and post consultations with your treating Doctor
- local anaesthetic
- complimentary LED light therapy treatment valued at \$120
- cosmeceutical gift valued at over \$100

Profound

MIRADRY

TREATMENT OF EXCESSIVE SWEATING (HYPERHYDROSIS) & ODOUR

The miraDry® procedure uses non-invasive technology that is clinically proven to dramatically reduce underarm sweat AND odour in a single treatment with long lasting results. It is the only long term non invasive solution for excessive underarm sweating currently available.

The miraDry® system delivers precisely controlled thermal (heat) energy to the region where the underarm sweat and odour glands reside and eliminates these glands noninvasively. You can expect to see sweat reduction immediately with minimal downtime.

Treatments are performed by our experienced miraDry Therapist and Cosmetic Doctor.

Requires consultation with our miraDry Therapist prior to proceeding with treatment.

excessive underarm sweat

TATTOO REMOVAL

PICOWAY LASER TATTOO REMOVAL

PICOWAY LASER BY CANDELA MEDICAL

The most advanced picosecond laser used to treat tattoos of all colours. The PicoWay shatters tattoo ink into miniscule particles which is cleared by the body's immune system. It's safe for darker skin types and with less discomfort during and after treatment, tattoo removal sessions can be spaced closer together and your tattoo is treated effectively and in fewer treatments.

Why is PicoWay superior to other laser tattoo removal?

PicoWay has the shortest pulses and the highest peak power of any tattoo removal laser. This means better ink clearance (all colours) and less heat is delivered to the skin so there's less discomfort and faster healing.

For best results, treatments are spaced 4-8 weeks apart.

FREQUENTLY ASKED QUESTIONS

How many treatments will I need?

The effectiveness of laser tattoo removal is dependent on several variables such as age of the tattoo, location, depth, size, the type of ink used among other factors. Consultations with our experienced Therapists are complimentary. They will assess your tattoo and advise the number of treatments required for fading or complete removal.

What if I only want to fade my tattoo?

Opt for one of our 'cover up' packages if you would like to refresh the ink in your tattoo or 'cover up' an existing tattoo.

What if I need more treatments?

Don't pay full price. Prepay your recommended package and if you need additional treatments, you can PAYG at package discount prices (T&C apply).

BEAUTY

HYDRAFACIAL MD™

MICRODERMABRASION WITH A BOOST

Allow 60 minutes

A highly effective exfoliating facial treatment and a Vamp Team favourite, HydraFacial MD uses a patented vortex delivery system to deeply cleanse, exfoliate, vacuum extract impurities and hydrate the skin through infusion of hyaluronic acid, antioxidants & botanical extracts, for a glowing complexion.

- **USED TO TREAT:** Enlarged and congested pores, blackheads, dry skin, uneven skin texture. The ideal prep treatment before more intensive laser skin treatments.

HydraFacial Boost

199

7.5% Glycolic exfoliation, suitable for all skin types, first time treatment.

HydraFacial Brightening Boost

209

15% Glycolic exfoliation, suitable for all skin types, for next level exfoliation.

HydraFacial Extreme Boost

229

30% Glycolic exfoliation, suitable for oily/congested, rough, thicker skin, for deeper chemical exfoliation (ideal for male skin types).

Purple Aggression HydraFacial

239

7.5%, 15% or 30% Glycolic exfoliation, suitable for oily/congested, rough, thicker skin, for deeper **mechanical** exfoliation (ideal for male skin types).

Optimise your treatment with one of our popular facial upgrades
(see page 24 for more details)

MICRONEEDLING FACIAL

Allow 60-90 minutes

A minimally invasive facial treatment involving the use of fine needles to create micro-injuries in the skin for infusion of hyaluronic acid. As the micro injuries heal, collagen & elastin are stimulated for improved skin tone, texture and hydration.

USED TO TREAT: Fine lines, uneven skin texture, thinning skin.

395 treatment upgrade +

DERMAPLANING FACIAL

Allow 60 minutes

A specialised blade is used to deeply exfoliate skin cells and treat vellous hair or 'peach fuzz' for brighter smoother skin. The treatment includes a soothing fruit enzyme mask followed by elixir oil and application of a tinted SPF 50+ to smooth & protect the skin. Your skin will be softer, smoother and brighter in appearance.

USED TO TREAT: Uneven skin texture and tone, vellous hair, enlarged pores.

149 treatment upgrades ++

SKIN PEELS

We offer a range of skin peels from Synergie Skin and Dermaceutic Laboratoire.

ENZYME HYDROPEEL

Allow 45 minutes

The perfect entry level peel for all skin types. A blend of papaya enzyme and 15% lactic acid will stimulate cellular renewal and leave the skin looking soft, plump and hydrated and with a dewy glow.

USED TO TREAT: Dehydration, pigmentation, oily skin, enlarged pores, congestion.

105 treatment upgrades +++

LACTIC PEEL

Allow 45 mins

A highly active yet gentle exfoliating treatment that amplifies the skins natural moisture properties and inhibits pigment production to achieve firmer, hydrated, glowing skin.

USED TO TREAT: Uneven skin texture, dry skin, sun damage, pigmentation. Expect skin flaking at higher concentrations. Available in 10-60% concentration.

120 treatment upgrade +

SALICYLIC PEEL

Allow 45 mins

Ideal for acne prone skin, the salicylic peel provides a deep, thorough cleansing of congested pores. With powerful anti-inflammatory properties, salicylic acid effectively calms sore red skin and helps manage any further flare ups.

USED TO TREAT: Acne prone skin, enlarged pores, blackheads. Expect minimal skin flaking at higher concentrations. Available in 5-30% concentration.

A course of 3-6 treatments is recommended for best results.

110 treatment upgrade +

RETINOL ENZYME PEEL

Allow 45 minutes

A reparative exfoliant harnessing the potent efficacy of retinol and enzymatic technology. Formulated with a blend of stabilised retinol and fruit enzymes, this mask is designed to resurface the skin and reset cellular function.

USED TO TREAT: Dull skin, uneven skin texture, sun damage, pigmentation, uneven skin tone. Expect minimal skin flaking.

A course of 3-6 treatments is recommended for best results.

145 treatment upgrade +

PETITE LASER FACIAL PICOWAY LASER BY CANDELA MEDICAL

Allow 60 minutes

A mini version of our popular PicoWay skin rejuvenation treatment, this facial improves the appearance of pores, smooths skin texture and keeps pigment at bay, all in the same treatment. This laser facial is gentle enough not to require topical numbing cream but powerful enough for you to see results. It's perfect for those wanting to try laser skin rejuvenation for the first time or as a maintenance treatment following a course of more intensive laser skin rejuvenation.

USED TO TREAT: Enlarged pores, uneven skin texture, skin clarity, mild pigmentation, maintenance treatment following intensive laser skin rejuvenation.

329 treatment upgrade +

SKIN PEELS

MODIFIED JESSNER PEEL

Allow 45 minutes

A powerful combination of lactic, salicylic, kojic acids and other peeling agents, this signature peel will purify and decongest while exerting potent rejuvenating effects. It's ideal for acne prone and congested skin as well as combination skin.

USED TO TREAT: Acne prone skin, congestion, enlarged pores, blackheads, uneven skin texture, sun damage, pigmentation. Expected skin flaking and minor peeling.

160 treatment upgrade +

MILK PEEL

Allow 45 minutes

The ultimate brightening treatment for a more luminous, even complexion. A combination of glycolic acid, lactic acid and salicylic acid work synergistically to treat dull, tired skin. Perfect for those with enlarged pores and skin in need of hydration.

USED TO TREAT: Dull skin, enlarged pores, congestion, uneven skin texture, dry skin. Expect minimal skin flaking.

180 treatment upgrade +

COSMO PEEL – TCA

Allow 45 minutes

A combination of TCA, salicylic acid, citric acid, vitamin A & vitamin C are used to induce a superficial chemical exfoliation of the skin to treat uneven skin texture.

USED TO TREAT: Pigmentation, fine lines, uneven skin texture, sun damage. Expect significant skin flaking and peeling at higher concentrations for 5-10 days. Available in 15%, 18% or 20% concentrations.

195 treatment upgrade +

COSMO PEEL FORTE – TCA

Allow 60 minutes

A powerful combination of glycolic acid, TCA and phenol is used to induce a medium chemical exfoliation of the skin to treat advanced signs of ageing in a single treatment.

Expect significant skin peeling for 7-14 days.

- **USED TO TREAT:** Deeper lines and wrinkles, advanced pigmentation, uneven skin texture, sun damage.

495 treatment upgrade +

MELA PEEL FORTE

Allow 60 minutes

A powerful combination of kojic acid, retinol, phytic acid, lactic acid and more are used to treat skin discolouration and unwanted pigment. Often used in combination with laser skin treatments in a cyclic course for best results.

Expect moderate skin flaking for 5-10 days.

- **USED TO TREAT:** Advanced pigmentation, epidermal melasma, uneven skin tone and texture.

A course of 3 treatments is recommended for best results.

295 treatment upgrade +

LED LIGHT THERAPY

Allow 45 minutes

DERMALUX TRI WAVE

A non-invasive light treatment for radiant, clearer skin. A standalone treatment or integrated into a skin care plan to enhance and accelerate results. Used to treat acne prone, dehydrated or lack lustre skin, or to calm and heal following laser treatments.

Treatment starts with a deep cleanse followed by application of red, blue or infrared LED light for 30 minutes and a relaxing massage.

- **USED TO TREAT:** Relaxation, acne prone skin, improves skin hydration and clarity, boosts collagen and elastin, calms the skin following laser skin treatments, general well being.

Promote better skin quality, healing and relaxation with post treatment LED phototherapy. Choose from red, blue or near infrared light. |

COSMETIC INJECTABLES

COSMETIC INJECTABLES

In recent years, cosmetic injectable treatments have gained unprecedented popularity for non-surgical facial rejuvenation. Cosmetic injectable treatments are used to smooth facial lines and wrinkles, restore lost volume to areas of the face that deplete as we age, and to create contours to facial areas such as cheeks, jawline and chin.

We use only the highest quality pharmaceuticals with proven safety profiles. No remote video consultations and personalised post treatment care is guaranteed.

CONSULTATIONS

Consultations with our experienced Doctors are complimentary with no obligation to proceed with treatment. Your Doctor will conduct a full facial assessment, discuss your specific areas of concern and develop an individualised treatment plan just for you. If you choose, you may proceed with treatment on the day of consultation.

ANTIWRINKLE INJECTIONS

Antiwrinkle injections are used to smooth facial lines and wrinkles typically in the upper face – forehead, frown lines and 'crows feet'. More advanced techniques include treatment of the lower face and neck and treatment of hyperhidrosis and bruxism (teeth grinding).

Australian law prevents us from advertising the names of our antiwrinkle treatments.

For more information, call the clinic
02 4041 1514.

Treatment A	\$4.50 per unit
Treatment B	\$13 per unit

COMMON TREATMENT AREAS Antiwrinkle

FROWN LINES

Also known as number 11 lines which are the vertical lines between the eyebrows.

from \$180 to \$225

CROW'S FEET

Lines around the outer corner of the eyes.

from \$180 to \$270

FOREHEAD LINES

The horizontal forehead creases.

from \$90 to \$225

BUNNY LINES

Lines across the bridge of the nose caused by crinkling the sides of the nose.

from \$90 to \$225

MENTAL CREASE

Horizontal lines on the chin.

from \$90 to \$225

VERTICAL LIP LINES

Commonly referred to as smoker's lines.

price on consultation

GUMMY SMILE

Showing too much of the upper gum when smiling.

from \$135 (min charge)

EYEBROW LIFT

To help with eyelid hooding.

from \$135 (min charge)

ADVANCED TREATMENT AREAS Antiwrinkle

DROOPED CORNERS OF THE MOUTH

We can also use antiwrinkle injections to lift the corners of the mouth which happens as we age.

price on consultation

HYPERHYDROSIS (EXCESSIVE SWEATING)

Antiwrinkle injections may be used for treatments of excessive sweating of the underarms, hands, feet, face and head. It's done as a series of injections placed superficially in the skin. This blocks neurological stimulation of sweat glands. The treatment is highly effective in reducing sweating by 90-100%. Re-treatment is necessary every 4-6 months.

price \$1000 (underarms, price on consultation for other areas)

BRUXISM (TEETH GRINDING)

A highly effective treatment for treatment of teeth grinding. It works by blocking nerve impulses to the masseter muscle. Treating this muscle also results in slimming of the lower face. Re-treatment is required every 3-6 months. Longevity of the effect will depend on the dose administered and the number of previous treatments.

from \$450

NEFERTITI LIFT

A Nefertiti Lift is the treatment of the platysma muscles in the neck with anti-wrinkle injections to treat sagging jowls and neck bands. This treatment will also reduce the reappearance of sagging jowls with advancing age.

price on consultation

DERMAL FILLERS

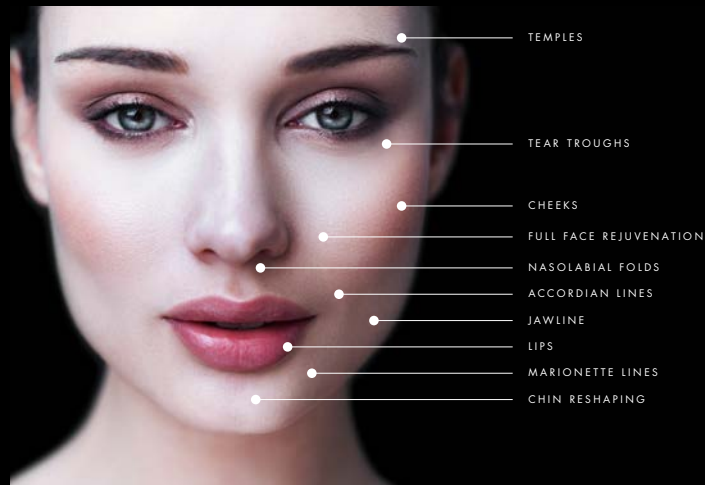

Dermal fillers are a gel-based cosmetic treatment injected into the skin to soften creases and folds, reduce the appearance of wrinkles, and increase or restore volume to the face for a more rejuvenated and youthful shape. We use only the highest quality fillers, skilfully placed by our experienced Cosmetic Doctors to achieve natural, balanced facial rejuvenation.

We stock an extensive range of dermal fillers so our Doctors can select the right fillers for your treatment. We use only the highest quality pharmaceuticals with proven safety and efficacy profiles.

DERMAL FILLERS (per 1ml)

\$600 - \$700

We offer customised dermal filler packages, refer to page 34 for details.

COMMON TREATMENT AREAS Dermal filler

A combination of these areas can be treated with dermal fillers for more complete facial rejuvenation. Talk to our Cosmetic Doctors regarding your specific areas of concern for specialist advice and a treatment plan tailored to you. Quotes for treatment provided on consultation, prior to proceeding with treatment.

CHEEKS

As we age, we lose volume in our cheeks due to loss of fat and bone reabsorption. Fillers can replace the lost volume in the cheeks and give a fuller, more defined look. We can recreate the youthful V shape of the face. Adding volume to the cheeks also lifts the mid-face improving the nasolabial folds, the lines that run from the nose to the corners of the mouth.

MARIONETTE LINES

These lines run from the corners of the mouth to the chin and give people a constant sad or angry look. Fillers can be injected to treat these.

TEAR TROUGHS

These are the hollow areas beneath the eyes. When we age we lose volume here which can then cause shadowing which gives the appearance of dark circles. Dermal fillers are injected here to replace volume and take away that tired look.

LIPS

Ageing causes loss of volume in the lips and some people genetically are born with small lips or asymmetrical lips. Dermal fillers are used to restore volume, enhance definition, and improve symmetry.

ADVANCED TREATMENT AREAS Dermal filler

ACCORDION LINES

Dermal fillers can be used to treat accordion lines or extended smile lines. These are static lines present on the outer-side of the mouth, caused by smiling or laughing.

TEMPLES

Hollowing of the temples, another sign of ageing, can be treated with dermal fillers, restoring lost volume helping to create a more youthful appearance.

CHIN

Filler can be used in the chin to create a more defined chin or to create a more proportionate face for those who have smaller chins or rounder faces. It can have a slimming effect for your face.

JAWLINE

Dermal fillers are used for improved structure and shape of the jawline. Different techniques are used for men who typically want a more defined jawline where women seek structure and softer curves.

FULL FACIAL REJUVENATION

Dermal filler is skilfully placed using the latest injecting techniques to restore lost volume, lift sagging skin and create soft, structure curves for overall facial rejuvenation.

SKIN BOOSTERS

HYDRATING MICRO-FILLER INJECTIONS

Skin boosters or micro-fillers are a 'thin' dermal filler that are injected into the superficial layers of the skin for improvement in hydration, skin tone and elasticity, and softening of fine lines and wrinkles. Skin boosters absorb water and stimulate production of collagen and elastin resulting in firmer, softer, hydrated skin.

Skin boosters are minimally invasive and are performed by our experienced Doctors.

USED TO TREAT: Dry skin, collagen & elastin stimulation for thinning skin, uneven skin texture, fine lines.

CONSULTATIONS	Complimentary
PER TREATMENT (full face, 3ml)	650
PER ADDITIONAL (1ml)	380
COURSE OF 3 TREATMENTS (recommended, approximately 9ml)	1800
HANDS (2ml)	1100

FAT DISSOLVING INJECTIONS

A novel non-surgical injectable treatment used to gradually dissolve double chin fat and reshape the jawline. The treatment is suitable for men and women and is often combined with dermal filler placed in the jawline and chin for more dramatic results.

A course of two or more treatments are recommended for good results. Fat dissolving injections are minimally invasive and are performed by our experienced Doctors.

Australian law prevents us from advertising the names of our fat dissolving treatments. For more information, call the clinic 02 4041 1514.

CONSULTATIONS	Complimentary
2 TREATMENT PACKAGE (2 x 2 vials)	2800
2 TREATMENT PACKAGE (2 x 3 vials)	4100
Additional vial if required	per vial 650

MINT (PDO) THREAD LIFT

KOREAN MINT PDO THREADS

Long biodegradable filaments coated in a stimulatory material (PDO – polydioxanone) are inserted under the skin to lift and tighten skin tissue of the facial and neck. We offer an innovative thread lift treatment that combines MINT long threads with PDO mono threads for a more dramatic lift. You will see immediate results with continued improvement over 4-12 weeks.

MINT thread lift is moderately invasive and is performed by our experienced Doctors. Results last up to 24 months.

- **USED TO:** reposition and tighten skin laxity or 'sagging' of the face & neck by lifting sagging tissue, stimulating collagen and contraction of fat tissue.

FULL MINT THREAD LIFT TREATMENT

3400

Price includes:

- Consultation with our Cosmetic Doctor
- Placement of a minimum of 12 x MINT PDO long threads + PDO mono threads
- Post care pack

MONO (PDO) THREADS

MATRIX PDO MONO THREADS

Short biodegradable filaments coated in a stimulatory material (PDO – polydioxanone), inserted under the skin to stimulate collagen and elastin to firm and smooth fine lines, wrinkles and 'crepey' skin on the face and neck.

Ideal for rejuvenating the skin without adding volume or 'bulk' to the treated area. Often paired with dermal filler treatment and MINT thread treatment for complete rejuvenation.

Mono threads are minimally invasive and are performed by our experienced Doctors.

- **USED TO TREAT:** Thinning skin, fine lines, improvement in overall skin quality in preparation for dermal filler treatment.

TREATMENT	SINGLE
CONSULTATION	Complimentary
MINI AREA (20) tear trough, mouth, nasolabial folds, marionette lines	600
