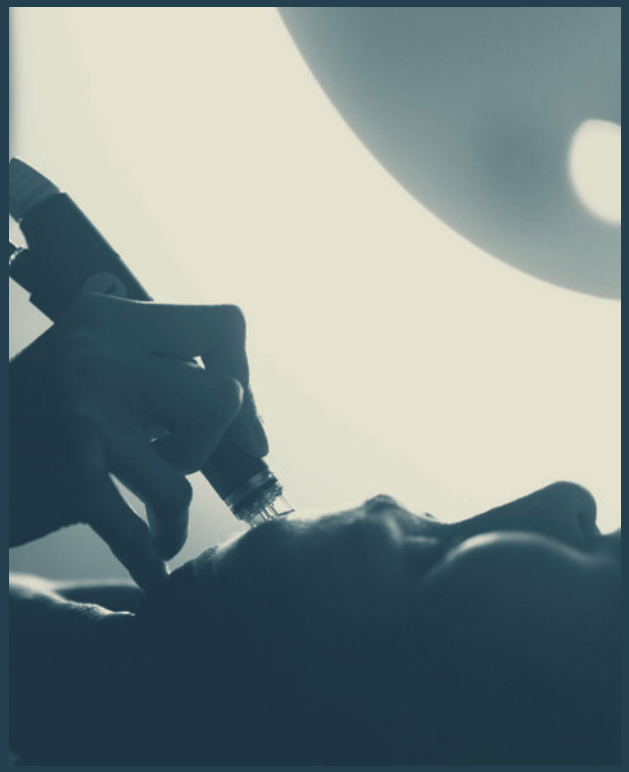
TREATMENTS



HYDRAFACIAL MD

Used to Treat:
Enlarged and congested pores, blackheads, dry skin, uneven skin texture. The ideal prep treatment before more intensive laser skin treatments.

Treatment Time: 45 minutes

A highly effective exfoliating facial treatment and a Vamp Team favourite, HydraFacial MD uses a patented vortex delivery system to deeply cleanse, exfoliate, vacuum extract impurities, and hydrate the skin through infusion of hyaluronic acid, antioxidants, and botanical extracts for a glowing complexion.

TREATMENTS	PRICE
HYDRAFACIAL EXPRESS *Ideal for busy schedules, our HydraFacial® Express delivers all the deep cleansing, extraction, and hydration of the full treatment, with a lighter exfoliation — the décolletage massage is saved for the full treatment experience.*	220
HYDRAFACIAL BOOST *7.5% Glycolic exfoliation, suitable for all skin types, first time treatment*	290
HYDRAFACIAL BRIGHTENING BOOST *15% Glycolic exfoliation, suitable for all skin types, for next level exfoliation*	300
HYDRAFACIAL EXTREME BOOST *30% Glycolic exfoliation, suitable for oily / congested, rough, thicker skin, for deeper chemical exfoliation (ideal for male skin types)*	320

Treatment upgrades available (see page 35)

MICRONEEDLING FACIAL

A minimally invasive treatment using fine needles to create micro-channels in the skin while infusing hyaluronic acid for deep hydration. As the skin heals, collagen and elastin production is stimulated, improving tone, texture, and overall skin quality.

Used to Treat:
Fine lines, uneven skin texture, thinning skin.

Treatment Time: 60 minutes
Price: 395

Treatment upgrades available (see page 35)

DERMAPLANING FACIAL

A specialised blade is used to deeply exfoliate skin cells and treat vellus hair or 'peach fuzz' for brighter, smoother skin. The treatment includes a soothing fruit enzyme mask followed by elixir oil and application of a tinted SPF 50+ to smooth and protect the skin. Your skin will be softer, smoother, and brighter in appearance.

Used to Treat:
Uneven skin texture and tone, vellus hair, enlarged pores.

Treatment Time: 60 minutes

Price: 149

Treatment upgrades available (see page 35)

PETITE LASER FACIAL

A mini version of our popular PicoWay skin rejuvenation treatment, this facial improves the appearance of pores, smooths skin texture, and keeps pigment at bay, all in the same treatment. This laser facial is gentle enough not to require topical numbing cream but powerful enough to see results. It's perfect for those wanting to try laser skin rejuvenation for the first time or as a maintenance treatment following a course of more intensive laser skin rejuvenation.

Used to Treat:
Enlarged pores, uneven skin texture, skin clarity, mild pigmentation, maintenance treatment following intensive laser skin rejuvenation.

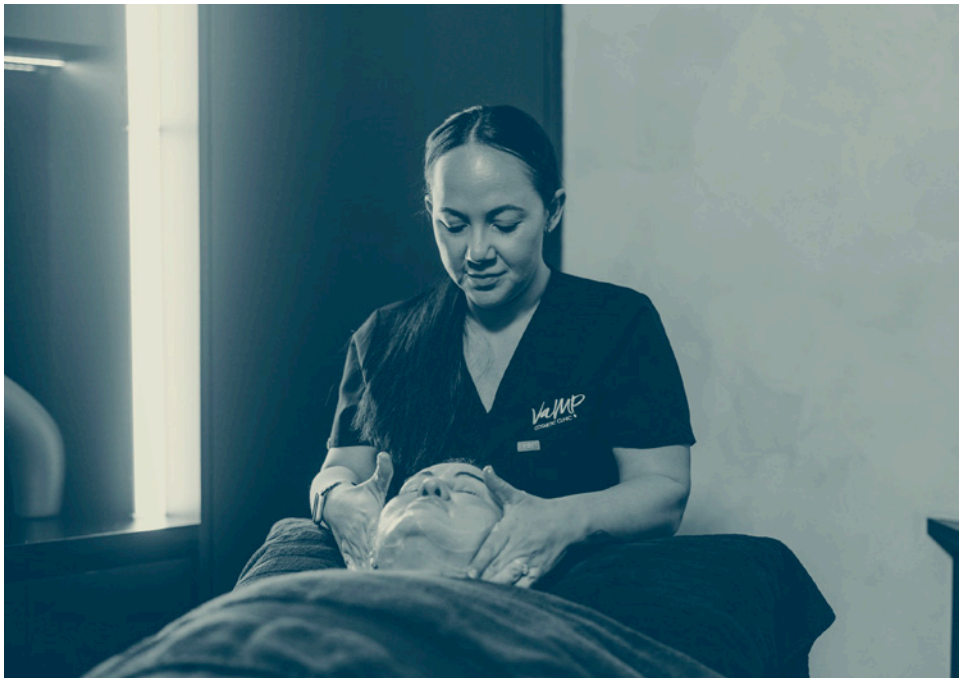
Discomfort: ●●●○○○○○○○

Price: 389

Treatment Time: 45 minutes

Treatment upgrades available (see page 35)



MASK PEEL

For acne-prone skin. A calming, clay-based peel that treats acne, excess sebum, and dilated pores. A great introductory peel for congested skin.

Used to Treat:
Oily and acne-prone skin

Downtime: ○○○○○○○○○○
Discomfort: ○○○○○○○○○○

Treatment Time: 45 minutes

Price: 170

Treatment upgrades available (see page 35)

CRYSTAL PEEL

Deeply exfoliates to fade pigmentation, post-acne marks, and mild photoageing while improving pores and texture. Formulated with salicylic, mandelic, and citric acids for a clearer, smoother complexion.

Used to Treat:
Dull skin, enlarged pores, congestion, uneven skin texture, dry skin. Expect minimal skin flaking.

Downtime: ●●○○○○○○○○
Discomfort: ●●●○○○○○○○

Treatment Time: 45 minutes

Price: 225

Treatment upgrades available (see page 35)

MILK PEEL

A luminous, even-complexion treatment with glycolic, lactic, and salicylic acids targeting dullness, uneven texture, congestion, and dryness. Expect minimal flaking and refreshed, hydrated skin.

Used to Treat:
Dull skin, enlarged pores, congestion, uneven skin texture, dry skin.

Downtime: ○○○○○○○○○○
Discomfort: ●●○○○○○○○○

Treatment Time: 45 minutes

Price: 200

Treatment upgrades available (see page 35)

MELA PEEL FORTE

An advanced peel combining kojic acid, retinol, phytic acid, and lactic acid to address pigmentation, melasma, and uneven tone. Expect moderate flaking for 5–10 days; ideal alongside laser treatments for best results.

Used to Treat:
Advanced pigmentation, epidermal melasma, uneven skin tone and texture.

Downtime: ○○○○○○○○○○
Discomfort: ●●○○○○○○○○

Treatment Time: 60 minutes **Price:** 295

Recommended Treatments: 3

Treatment upgrades available (see page 35)

LED LIGHT THERAPY

DERMALUX TRI WAVE MD

Used to Treat:
Relaxation, acne prone skin, improves skin hydration and clarity, boosts collagen and elastin, calms the skin following laser skin treatments, general well being.

Full Treatment Time: 45 minutes
Price: 150

Add On Treatment Time: 20 minutes
Price: 55

Treatment upgrades available (see below)

A non-invasive light treatment that promotes clearer, more radiant skin. It can be a standalone treatment or combined with other therapies to boost and accelerate results. Ideal for acne-prone, dehydrated, or dull skin, and to calm and heal after laser treatments.

Treatment starts with a deep cleanse followed by red, blue, or infrared LED light and a relaxing massage.

FACIAL ENHANCEMENT UPGRADES

For the ultimate in rejuvenation + relaxation, add a facial enhancement to any of our facial and laser facial treatments. Look for the coded dots to see suggested upgrades.

CALM

A luxurious, high-performance mask designed to rebuild skin barrier proteins and boost skin immunity. Infused with probiotics, vitamin B3, antioxidants, and anti-inflammatories, it's the ultimate treatment for calming and restoring sensitive skin.

Treatment Time: 20 minutes
Price: +55

LED LIGHT THERAPY

A non-invasive light treatment that promotes clearer, more radiant skin. It can be a standalone treatment or combined with other therapies to boost and accelerate results. Ideal for acne-prone, dehydrated, or dull skin, and to calm and heal after laser treatments. Treatment starts with a deep cleanse followed by red, blue, or infrared LED light and a relaxing massage.
